

**END OF TERM 1 EXAMINATIONS 2024**  
**SENIOR S2**

**CHEMISTRY PAPER 1**

**TIME 1 hour**

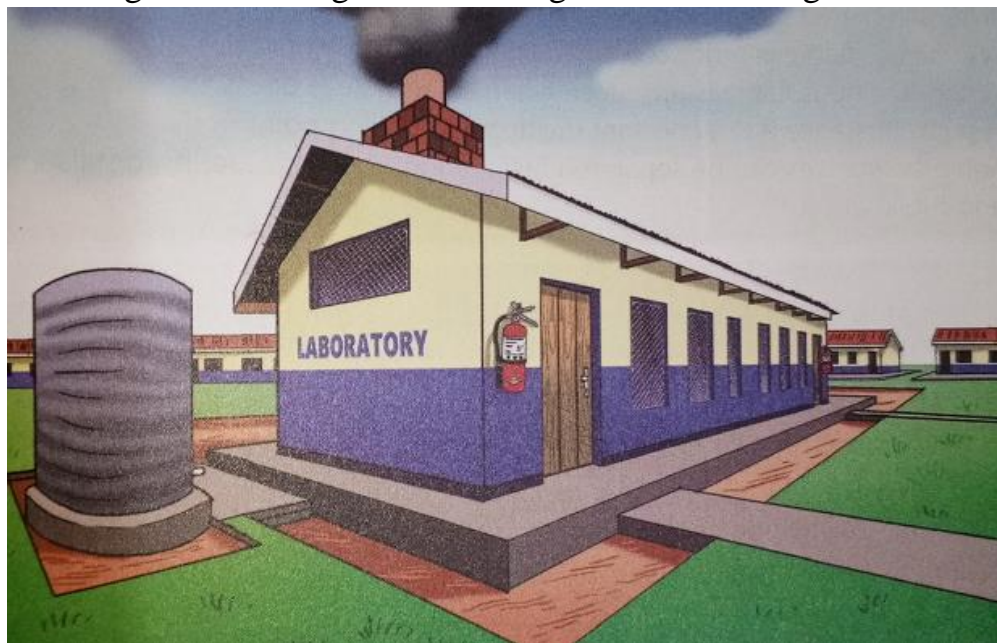

Name ..... stream .....

**Instructions to learners**

- *This examination paper consists of **two** test items.*
- *Attempt all of them and write your responses in the spaces provided.*
- *Neat handwriting will earn you more scores.*

**Item 1**

Your local community has just completed the construction of a laboratory in the new community secondary school however, the members do not know what is supposed to be in this laboratory and which rules and regulations can govern the usage of this building.

The local council 3 chairperson is looking for an expert in managing chemistry laboratories to advice the school managers on; what the tools found in the laboratory are called, examples and use of some common tools, and the rules and regulations that govern the usage of this building.

**Task**

As a learner of chemistry, prepare a sensitization message that you will deliver upon invitation.

## Item 2

Miss Namumbejja recently arrived in Uganda having stayed in Dubai for approximately four years. As a businesswoman, she landed with the following chemical elements;

# Carbon

# Aluminium

Copper

Iron

## Sulphur

With a plan to construct a chemical industry, she is looking for an expert to tell her the chemical symbol and the uses of each of these elements. This will enable her to decide which element is more important and so invest more money in it.

## Task

As a learner of chemistry, prepare a presentation to miss Namumbejja.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
