

LUBIRI SECONDARY SCHOOL
INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT)
SENIOR TWO

840

TERM 1 2024

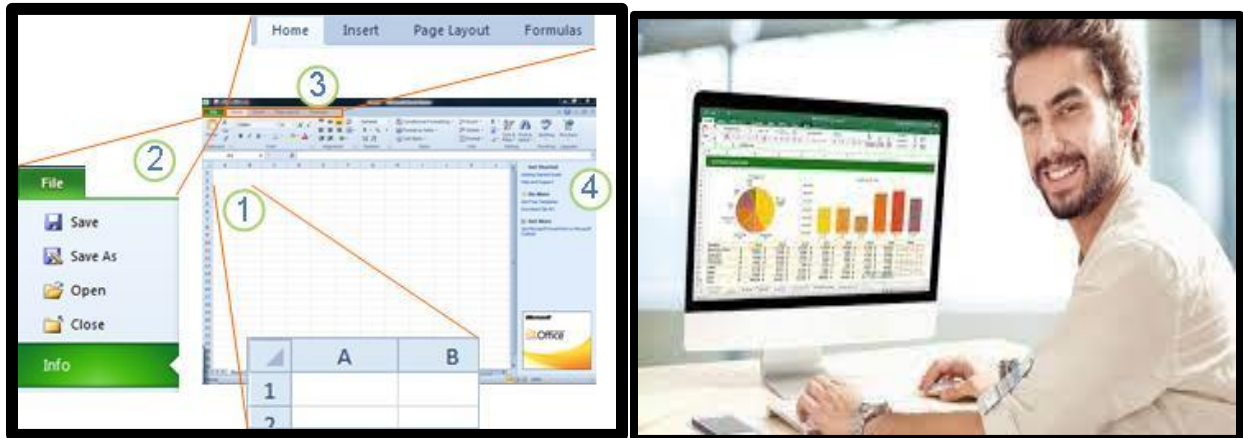

1: 30 minutes

INSTRUCTIONS:

*This paper consists of **three** examination items. Answer **them** all.*

Item 1

In a village Sacco, Sacco members have been saving with the Sacco for the last five years. However many Sacco members complain about the way the profits and shares are determined since they have been depending on book and pen records. The chairperson of the Sacco heard the news that you entered the village from town where you acquired the computerized knowledge of preparing such records

Task;

- (i) Guide Sacco members on how they can start using a computerized system right from the time the computer is off up to the level of entering Sacco records.
- (ii) Provide Sacco members with tools/features used to compute Sacco profits

Item 2

Due to increasing number of students at Lubiri Secondary school computer lab 1 and lab 2 can no longer accommodate all the learners, while in the top administrator's meeting, a room formerly used as a prefecture was identified at Muteesa II block. The top administrators have invited you to identify possible devices and equipment to be placed in the newly established lab at Muteesa II block.

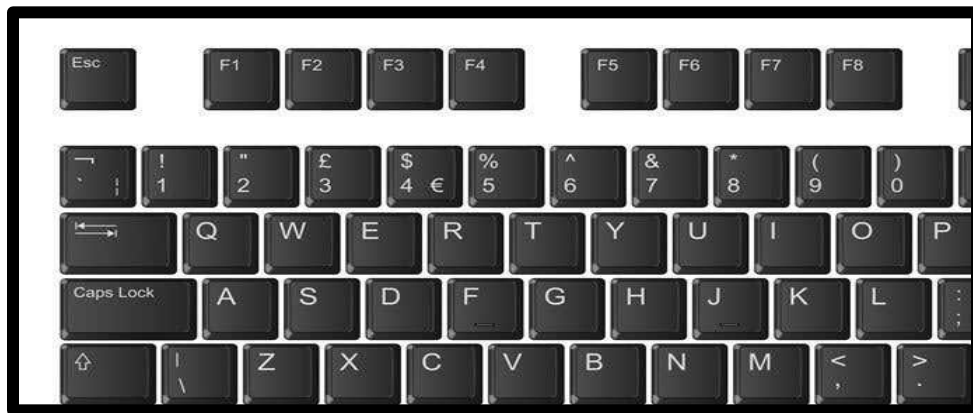

Task;

- (a) Make a write up to the top administrators about the devices, equipment and their roles in the new lab at Muteesa II block

Item 3

In your trading center, your friends from different schools have returned home from their schools since it is holiday time. In their schools computers are very few meaning not everyone has access to the computer, one of them has holiday work about the key board, and he approaches you for guidance about the relevancy of different key board keys.

Task;

- (i) Guide your friend about the function of different key board buttons
