Rainfall (mm)	250	250	325	300	213	25	25	25	100	275	380	200

Task

- Draw a suitable graph to represent the above information
- Calculate
 - Mean annual temperature
 - Mean annual rainfall
- Using the graph you have drawn ,describe the climate of Gabon

Item 4

There are myths surrounding the existence of most land forms in Uganda , for example the occurrence of earthquakes is linked to cultural gods .the existence of certain rocks in some areas is also linked to ancestral activities.there myths have at times led to people not taking advice provided by government whenever natural occurrences are to happen .this has led to destruction of property and loss of lives in some areas

Task

Prepare a presentation for your community sensitizing them on how the following landforms are formed

- (i) Mountains
- (ii) Plateaus
- (iii) Rift valleys
